

Attention all prospective operators or operators doing renovations of food preparation facilities that have been classified as Class III or Class IV:

The Department of Environmental Protection issued a General Permit for the Discharge of Wastewater Associated With Food Preparation Establishments on September 30, 2005. Existing establishments must comply with the conditions of the permit by July 1, 2011. **Newly constructed facilities, existing facilities that do renovations, and existing facilities that are sold or change owners must comply as part of that process.**

Facilities located in the Town of Montville must contact the Water Pollution Control Authority at 848-3830.

Facilities located in the City of Norwich must contact Norwich Public Utilities at 823-4149.

Facilities located in the Town of Sprague must contact the Water & Sewer Authority at 822-3000 ext.225.

The Uncas Health District will not issue final approval or a food service license for any facility without written documentation from the appropriate authority verifying the DEP General Permit requirements have been met.
